Upgrades • Test Automation • Customer Care • Managed Services

## ABOUT TRYON SOLUTIONS.

Tryon Solutions provides professional services and software solutions for Blue Yonder supply chain applications. We have extensive experience with end-to-end implementations, upgrades and optimization services for Warehouse Management Systems and associated solutions, such as Transportation Management Systems, Workforce Management, parcel, automation and other logistics execution software applications.

# What Are Your Supply Chain Execution Challenges...

---

## BLUE YONDER SOLUTIONS

We are a Blue Yonder reseller and consulting partner, and can help evaluate and select the appropriate industry leading Blue Yonder application(s) and tailor it for your customers needs to maximize ROI.

## CUSTOMER CARE • MANAGED SERVICES

We offer on-site and offshore application maintenance services to support your supply chain systems and augment your staffing capacity. Tryon is proud to offer managed services for customers struggling to meet internal SLA's due to technical resource shortages.

## DEPLOYMENT • UPGRADE SERVICES • TEST AUTOMATION SOLUTIONS

Our team specializes in Blue Yonder Warehouse & Labor Management implementations, upgrades, technical services, and system integrations.

## ROBOTICS • OPERATIONAL CONSULTING

Our offerings provide functionality to accelerate timelines and improve efficiency while reducing risk. We'll help you navigate the integration and utilization of robotics while drastically improving quality, delivery and cost.
